DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 and 13-53, drawn to kaolin and kaolin containing compositions.

Group II, claim(s) 11-12, drawn to a method of preparing a kaolin.

Group III, claim(s) 54-58, drawn to a method of evaluating a kaolin containing composition.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: At least group I is anticipated by US 2003/164117 to Golley et al who disclose a kaolin composition containing hydrous kaolin have the particle size distribution of:

$$\frac{\% \text{ finer than } 2.0\mu\text{m}}{\% \text{ finer than } 0.5\mu\text{m}} \geq \text{about } 3.$$

Which would give an inverse ratio of greater than 0.33 (which would overlap with the claimed ratio of less than or equal to 0.5).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
